

New Source Review newspaper advertisements for construction permit applications, March 24, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 22, March 23, or March 24, 2005. Public notices are generally published every two weeks. The previous publication of public notices was March 8 – 10, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Tennessee Aggregate Company, LLC with a mailing address of P.O. Box 1111, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 07-0016-01/58018) for modification of a Rock Crushing Operation located on Towe String Road, Jacksboro, TN 37757. This existing operation consists of crushing, screening, and conveying equipment used to produce crushed stone. Wet suppression and a baghouse are used for pollution control. The requested modifications are to remove the facility's annual operating hours limit and to add baghouse monitoring requirements. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Campbell County "Lafollette Press"--published once on or before Thursday, March 24, 2005.

The applicant is Franklin Industrial Minerals with a mailing address of 612 10th Avenue North, Nashville, TN 37203. They seek to obtain an air contaminant permit (Division identification number: 18-0007-03/58029) for modification of a Grinding Operation located at 10583 Highway 70 East, Crab Orchard, TN 37723. This existing fine grinding operation consists of four (4) roller mills and eight (8) storage silos. Dust collectors are used for control of particulate emissions. The proposed modification is the addition of two (2) new storage silos and six (6) dust collectors. There would be physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, March 24, 2005.

The applicant is Livingston Sawmill, Inc. with a mailing address of 118 East Seventh Street, Livingston, TN 38570. They seek to obtain an air contaminant permit (Division identification number: 67-0008-05/58038) for modification of a Wood Working Operation located at the same address. This existing operation consists of a chipper, debarker, various saws, and associated equipment used to cut lumber. Cyclones are used for pollution control. The requested modification is for the addition of a lumber sorter and cut-off saw with cyclone control. There would be physical construction. Regulated air contaminants emitted by this source would remain the same. Mr. M. Reynolds is the assigned Division person.

For the Overton County "Livingston Enterprise"--published once on or before Thursday, March 24, 2005.
